

Global AI Olympiad (GAIO)

Investor Profile & Strategic Opportunity Report

1. Executive Summary

The **Global AI Olympiad (GAIO)** is a flagship international AI-focused competition, innovation ecosystem, and talent pipeline designed to identify, nurture, and commercialize future-ready artificial intelligence talent. GAIO operates as a **recurring annual global event**, combining **virtual competitions, regional physical finals, industry partnerships, and commercial AI initiatives**.

For investors, GAIO represents a **scalable, multi-revenue, low-risk, high-impact platform** positioned at the intersection of **education, technology, innovation, and global talent development**.

2. GAIO Vision, Mission & Long-Term Goal

Vision

To become the **world's leading AI Olympiad**, shaping the next generation of AI leaders, innovators, and entrepreneurs.

Mission

- Democratize access to AI education and competition
- Bridge academia, industry, and innovation
- Create a sustainable AI ecosystem with global impact

Long-Term Goal (5–10 Years)

- Establish GAIO as a **globally recognized AI brand**
 - Operate GAIO chapters in **50+ countries**
 - Create GAIO-backed **AI startups, labs, and research hubs**
 - Become a feeder platform for **global tech giants, governments, and research institutions**
-

3. GAIO Ecosystem Overview

GAIO is not a single event—it is a **multi-layered ecosystem**:

1. **Global AI Olympiad Competition**
2. **Education & Training Programs**
3. **Startup & Innovation Incubation**
4. **Corporate & Government Partnerships**
5. **Media, Branding & Global Exposure Platform**

Each layer contributes to **independent and combined revenue streams**.

4. Event Structure

Phase 1: Global Virtual Competition

- Online registration
- AI challenges, quizzes, and problem-solving rounds
- Global participation with minimal infrastructure cost

Phase 2: Regional Physical Finals

- Country-wise or regional finals
- University or convention-based events
- Sponsored by local and regional partners

Phase 3: Global Grand Finale

- International-level final event
 - High media coverage
 - Participation of global sponsors, investors, and policymakers
-

5. Revenue Model – Where the Money Comes From

5.1 Registration & Participation Fees

- Individual participant registration
- Team-based competition entries
- Premium fast-track or advanced challenge access

5.2 Sponsorship Revenue (Core Revenue Stream)

Sponsorship Categories:

- Title Sponsor
- Platinum Sponsor
- Gold Sponsor
- Silver Sponsor
- Regional Sponsors
- Local Event Sponsors

Sponsor Benefits:

- Global brand exposure
 - Access to AI talent pool
 - Recruitment & branding rights
 - Product showcasing
 - Media & digital promotion
-

5.3 Corporate Partnerships

- AI hiring partnerships
 - Corporate AI challenges
 - Sponsored problem statements
 - Industry-led workshops
-

5.4 Education & Certification Programs

- GAIO-certified AI courses
 - Bootcamps & masterclasses
 - University collaborations
 - Corporate AI training programs
-

5.5 Media, Content & Licensing

- GAIO-branded content
- Paid webinars and summits
- Event recordings & licensing
- White-label competitions for institutions

5.6 Startup & Innovation Monetization (Future Growth)

- GAIO-backed startup incubation
 - Equity participation in selected startups
 - Demo days & investor pitching events
-

6. Investment Opportunities

Investment Use Areas

- Platform & technology development
- Global marketing & outreach
- Event execution & logistics
- Talent acquisition & operations
- Content & education infrastructure

Expected Investor Value

- Equity participation
 - Profit-sharing model
 - Long-term brand asset growth
 - Strategic positioning in global AI ecosystem
-

7. Sponsorship & Investment Structure

Sponsorship Investment

- Local / Regional Sponsorship
- Country Chapter Sponsorship
- Global Title Sponsorship

Investor Participation Models

- Equity-based investment
- Strategic partnership investment
- Event-based revenue-sharing

(Detailed financial projections and valuation shared under NDA.)

8. Competitive Advantage

- First-mover advantage in structured AI Olympiad ecosystem
 - Annual recurring global model
 - Low operational cost for virtual scalability
 - Strong youth, academic, and industry appeal
 - Multi-country expansion capability
-

9. Future Roadmap & Accomplishments

Short-Term (1–2 Years)

- Expand to multiple countries
- Strengthen sponsor pipeline
- Launch GAIO Academy

Mid-Term (3–5 Years)

- Establish global GAIO finals
- Launch incubation & startup funding
- Build AI research partnerships

Long-Term (5+ Years)

- GAIO Venture Fund
 - Global AI policy & advisory role
 - Government & UN-level collaborations
-

10. Why Invest in GAIO

GAIO offers investors:

- **Scalability** without heavy infrastructure
- **Diverse revenue streams**
- **Strong global branding potential**
- **Early entry into future AI leaders & innovations**

GAIO is not just an event—it is a **long-term AI asset**.

Revenue Architecture

The Global AI Olympiad has **7 primary revenue pillars**:

1. Global Title & Strategic Sponsorships
2. Continental & Regional Sponsorship Rights
3. Broadcast, Media & Content Licensing
4. Participation & Platform Fees
5. Talent, Hiring & Data Licensing
6. Startup & Investment Ecosystem Revenue
7. Institutional Expansion (Institute, R&D, Policy Labs)

This creates **diversified, non-event-dependent income**.

Revenue Pillar 1 | Global Title & Strategic Sponsorships

A. Global Title Sponsor (Exclusive)

- 1 global partner only
- Naming rights across all countries and finals

Pricing

- Year 1: £200,000
- Year 2: £350,000
- Year 3: £500,000+

Includes:

- Brand integration
 - Talent pipeline access
 - Startup showcase priority
 - Policy-level visibility
-

B. Global Strategic Partners (Non-Exclusive)

- Tech, cloud, telecom, finance

Pricing

- 3-5 partners x £50,000 - £75,000

Year 1 Potential

- £150,000 - £250,000
-

Revenue Pillar 2 | Continental & Regional Sponsorship Rights

A. Continental Partners (5 Continents)

- Asia
- Europe
- Africa
- Middle East
- Americas

Pricing per continent

- Year 1: £40,000
- Year 2: £75,000
- Year 3: £120,000+

Year 1 Potential

- 3 sold x £40,000 = £120,000
(conservative, not all continents Year 1)
-

B. Country / Regional Sponsors

- Banks, telcos, education groups
- Bundled with university access

Pricing

- £10,000 - £25,000 per country

Year 1 Potential

- 10 countries x £15,000 = £150,000

Revenue Pillar 3 | Broadcast, Media & Content Rights

A. Final Event Broadcast Rights

- Exclusive livestream partner
- Highlight packages
- Educational replay rights

Pricing

- Year 1: £50,000
- Year 2: £100,000
- Year 3: £200,000+

B. Documentary & Content Licensing

- AI stories
- Startup journeys
- Cultural AI showcases

Year 1

- £20,000 - £30,000

Revenue Pillar 4 | Participation & Platform Fees

A. AI Startup Track Fees

- Only for shortlisted startups

Pricing

- £500 - £1,000 per startup

Year 1

- 100 startups x £750 = £75,000
-

B. Institutional Participation Packages

- Universities opting for enhanced exposure
- Optional, not mandatory

Pricing

- £2,000 - £5,000

Year 1

- 20 institutions x £3,000 = £60,000
-

Revenue Pillar 5 | Talent, Hiring & Data Licensing

A. Corporate Talent Access

- Early access to top talent database
- Internship and hiring pipelines

Pricing

- £20,000 per corporate partner

Year 1

- 5 partners x £20,000 = £100,000
-

B. Government & Education Licensing

- Talent benchmarking reports
- Skills gap analysis

Year 2 onwards, but preview value for investors.

Revenue Pillar 6 | Startup & Investment Ecosystem

A. Demo Day & Investor Access Fees

- Paid access for funds and corporates

Pricing

- £5,000 - £10,000 per fund

Year 1

- 10 funds x £7,500 = £75,000
-

B. Future Carry or Success Fees (Optional)

- 1% - 3% carry on funded startups
- Deferred upside

Investors understand this as **embedded optionality**.

Revenue Pillar 7 | Institutional Expansion (Post-Year 1)

A. Global AI Institute

- Certifications
- Executive programs
- Government training

Year 2

- £300,000 - £500,000
-

B. R&D and Policy Labs

- Sponsored labs
- Research grants
- Think tank partnerships

Year 2-3

- £250,000+

Consolidated Revenue Projection

Year 1 (Foundational)

Source	Revenue
Global & Strategic Sponsors	£350,000
Continental & Country Sponsors	£270,000
Media & Broadcast	£80,000
Participation & Platform Fees	£135,000
Talent & Startup Ecosystem	£175,000
Total Year 1	£1,010,000

Year 2 (Institutional)

£2.0M - £2.5M

Year 3 (Global Authority)

£4.0M - £6.0M

Why This Model Works

- Rights-based revenue scales without linear cost growth
 - Ministries add validation, not expense
 - London finale anchors prestige
 - Talent + startups create long-term monetisation
 - Broadcast and data compound over time
-

3-year financial model

Currency: **GBP**
Model type: **Rights-led platform with controlled cost growth**

Model Assumptions

These assumptions matter more than the numbers.

Scale Assumptions

- Year 1 | 10-15 countries | 3 continents active
- Year 2 | 25-30 countries | all 5 continents active
- Year 3 | 50+ countries | full global footprint

Cost Philosophy

- Tech, branding, operations largely in-house
- Costs grow sub-linearly vs revenue
- High-margin rights and licensing dominate from Year 2

Revenue Mix Shift

- Year 1 | Sponsorship-heavy
 - Year 2 | Sponsorship + licensing + institute
 - Year 3 | Platform + institute + media + data
-

Year 1 Financial Model | Foundational Year

Revenue Breakdown | Year 1

Revenue Stream	Amount
Global Title Sponsor	£200,000
Global Strategic Sponsors	£150,000
Continental Sponsors (3 x £40k)	£120,000
Country Sponsors (10 x £15k)	£150,000
Broadcast and Media Rights	£80,000
Startup Participation Fees	£75,000

Revenue Stream	Amount
University Packages	£60,000
Talent and Investor Access	£175,000
Total Revenue Y1	£1,010,000

Cost Breakdown | Year 1

Cost Category	Amount
London Final Event	£55,000
Media Production	£15,000
Operations and Team	£10,000
Travel and Jury	£15,000
Platform and Hosting	£5,000
Contingency	£10,000
Total Costs Y1	£110,000

Year 1 Result

- **Gross Margin** | ~89%
- **Operating Surplus** | ~£900,000
- Surplus purpose:
 - Cash reserve
 - Year 2 expansion
 - Institutional credibility

This is what makes the £100k investment compelling.

Year 2 Financial Model | Institutional Expansion

Key Additions

- Full continental rollout
 - Global AI Institute launch
 - Stronger broadcast licensing
 - Higher sponsor pricing
-

Revenue Breakdown | Year 2

Revenue Stream	Amount
Global Title Sponsor	£350,000
Global Strategic Sponsors	£250,000
Continental Sponsors (5 x £75k)	£375,000
Country Sponsors (25 x £20k)	£500,000
Broadcast and Media Rights	£150,000
Startup Participation Fees	£150,000
Talent and Hiring Licensing	£250,000
Global AI Institute Programs	£400,000
Total Revenue Y2	£2,425,000

Cost Breakdown | Year 2

Cost Category	Amount
Events and Production	£120,000
Expanded Operations Team	£200,000
Platform Scaling	£80,000
Marketing and PR	£100,000
Legal and Compliance	£50,000
Total Costs Y2	£550,000

Year 2 Result

- **Operating Margin** | ~77%
- **Operating Profit** | ~£1.88M

At this point, this is no longer perceived as an event business.

Year 3 Financial Model | Global Authority Stage

Key Additions

- 50+ countries
- Licensed national editions
- R&D and policy labs

- Documentary and education content scale

Revenue Breakdown | Year 3

Revenue Stream	Amount
Global Title Sponsor	£500,000
Global Strategic Sponsors	£400,000
Continental Sponsors (5 x £120k)	£600,000
Country Sponsors (50 x £25k)	£1,250,000
Broadcast and Media Rights	£300,000
Talent and Data Licensing	£500,000
Startup Ecosystem and Carry	£350,000
Global AI Institute	£750,000
R&D and Policy Labs	£300,000
Total Revenue Y3	£4,950,000

Cost Breakdown | Year 3

Cost Category	Amount
Global Events and Finals	£250,000
Full-Time Team and Ops	£450,000
Platform and Security	£150,000
Marketing, PR, Media	£200,000
Governance and Compliance	£150,000
Total Costs Y3	£1,200,000

Year 3 Result

- **Operating Margin** | ~76%
- **Operating Profit** | ~£3.75M

This is where valuation multiples apply.

Investor- Summary

3-Year Cumulative View

	Metric	Value
Total Revenue (3 years)		~£8.4M
Total Costs (3 years)		~£1.86M
Cumulative Operating Profit		~£6.5M

Valuation Logic

- Platform + rights + institute multiple: **5x - 8x EBIT**
- Year 3 EBIT ~£3.75M
- Implied valuation: **£18M - £30M**

This is how £100k becomes meaningful.

RISK AND MITIGATION FRAMEWORK

1.1 Strategic Risks

Risk: Over-reliance on Sponsorship Revenue

If sponsorship uptake is slower than projected, cash flow pressure may appear.

Mitigation

- Multi-layer revenue model (participation fees, licensing, broadcast, talent access)
 - Long-term sponsorship contracts (3 to 5 years) for title and continental partners
 - Early locking of anchor partners before public launch
-

Risk: Perception as an “Event Company”

Investors may misclassify the platform as a one-off competition.

Mitigation

- Clear positioning as a rights-owning global IP platform
 - Separate branding for:
 - Olympiad (competition)
 - Institute (education)
 - Startup ecosystem (investment pipeline)
 - Financial reporting structured around IP and licensing revenue, not ticket sales
-

1.2 Political and Institutional Risks

Risk: Ministry endorsement delays or refusal

Some ministries may be slow or cautious.

Mitigation

- Validation-based endorsement model, not operational dependency
 - Multiple ministries per region to avoid single-point failure
 - Use universities and academic councils as parallel legitimacy channels
-

Risk: Geopolitical sensitivity across countries

AI governance is politically sensitive.

Mitigation

- Neutral positioning with UK-based global coordination
 - Clear ethics and non-alignment policy
 - Avoid military, surveillance, or politically sensitive AI challenges
-

1.3 Legal and Brand Risks

Risk: “Olympiad” or branding conflicts

Potential confusion with Olympic institutions.

Mitigation

- Explicit disclaimer of no affiliation
 - Distinct visual identity and terminology
 - Legal naming checks before scale expansion
 - Use “Global AI Olympiad | Independent Platform” consistently
-

Risk: IP ownership disputes from participants

Participants may claim ownership conflicts.

Mitigation

- Clear IP framework:
 - Participants retain ownership
 - Organisers retain showcase, broadcast, and analytics rights
 - Mandatory digital acceptance at submission stage
-

1.4 Operational Risks

Risk: Scaling too fast

Too many countries too early may dilute quality.

Mitigation

- Controlled country onboarding
 - Annual cap on participating regions
 - Quality metrics tied to continuation rights
-

Risk: Execution dependency on partners

In-kind contributions may fail.

Mitigation

- Redundant capability inside Britsync and Ascentra
 - Fallback vendor list
 - Modular event design
-

1.5 Financial Risks

Risk: Cash flow timing mismatch

Sponsorship receipts may lag expenses.

Mitigation

- Upfront sponsorship invoicing
 - Milestone-based payments
 - Conservative reserve policy
-

FOUNDING PARTNER TERM SHEET

(£100,000 Investment)

2.1 Investment Overview

- Investment Amount | £100,000
 - Entity | Global AI Olympiad Ltd (UK)
 - Stage | Founding Partner Round
 - Use of Funds | Platform activation, global launch, London final, rights monetisation setup
-

2.2 Investment Structure (Choose One)

Option A | Equity-Based (Recommended)

- Equity Offered | 5 percent
 - Valuation (Post-Money) | £2,000,000
 - Dilution Protection | Until Series A or equivalent
 - Board Status | Board Observer
 - Reserved Matters | Major rights sale, IP transfer, acquisition
-

Option B | Revenue Share (If Equity Is Avoided)

- Revenue Share | 12 percent

- Term | 5 years
 - Applies To |
 - Sponsorship revenue
 - Licensing revenue
 - Broadcast revenue
 - Cap | 3x return cap
-

2.3 Founding Partner Privileges

- Founding Partner designation (permanent)
 - Priority access to startup pipeline
 - First refusal on:
 - GCC continental sponsorship
 - Regional hosting rights
 - Speaking and branding rights at global finals
 - Advisory participation in strategy councils
-

2.4 Exit and Liquidity

- Buyback option after Year 3 at fair market value
 - Tag-along rights on sale
 - Strategic acquisition protection clause
-

RIGHTS OWNERSHIP AND ALLOCATION MODEL

This is the **core asset logic**.

3.1 Central Ownership (Global AI Olympiad Ltd)

Owns 100 percent of:

- Brand IP
- Competition framework
- Digital platform

- Global finals
 - Media and broadcast master rights
 - Data and analytics (non-personal)
-

3.2 Rights Allocation Layers

Global Rights (Non-Transferable)

- Title sponsorship
- Global broadcast
- Global institute
- Global startup ecosystem

Owned and controlled centrally.

Continental Rights (Licensed, Not Sold)

- Continental naming rights
- Continental finals
- Regional sponsor sales
- Regional media partnerships

Licensed on:

- Fixed-term contracts (3 to 5 years)
 - Performance and compliance conditions
 - Revenue share back to global entity (15 to 25 percent)
-

Country Rights (Sub-Licensed)

- Country qualifiers
- Local sponsors
- University coordination

Sub-licensed via:

- Universities
- Education bodies
- Corporate partners

No permanent transfer of IP.

3.3 Investor Rights Position

Founding Partner has:

- Economic participation across all layers
- Priority access to premium rights
- No operational burden
- No liability for regional execution

This keeps the investment **clean and scalable**.

“The Global AI Olympiad is a rights-owning global AI platform with controlled licensing, ministry validation, and diversified monetisation. The Founding Partner investment secures early economic participation and strategic influence before institutional repricing.”

MINISTRY ENDORSEMENT PLAYBOOK

(Global AI Olympiad)

1.1 Objective of Ministry Engagement

The objective is **validation, not dependency**.

Ministries are engaged to:

- Legitimize the Olympiad nationally
- Encourage university participation
- Signal credibility to sponsors and media
- Align with national AI and education agendas

Ministries are **not required** to:

- Fund the event
- Organise logistics
- Approve individual registrations

This keeps the model fast and scalable.

1.2 What “Endorsement” Means

Ministry endorsement includes:

- Letter of support or acknowledgment
- Permission to use ministry name and logo as “Endorsed by”
- Encouragement to universities to participate
- Optional nomination of observers or judges

Endorsement does **not** include:

- Regulatory authority
- Academic credit
- Policy ownership
- Financial obligation

This distinction avoids legal and political risk.

1.3 Target Ministries

Primary:

- Ministry of Education
- Ministry of Higher Education
- Ministry of Science, Technology, or Digital Transformation

Secondary:

- National AI councils
- Innovation authorities
- Skills and workforce agencies

Avoid:

- Defense
 - Intelligence
 - Internal security bodies
-

1.4 Endorsement Engagement Flow

Step 1 | Regional Prioritisation

- Select 10-15 strategic countries
 - Prioritise AI-active, sponsor-attractive regions
 - Assign one internal owner per country
-

Step 2 | Official Outreach Package

Send a **concise 6-8 page pack** containing:

- Olympiad overview
- Non-political positioning
- University participation model
- Ethics and neutrality statement
- London global final details
- Endorsement request template

This must come from **Ascentra**, not an individual.

Step 3 | Friction-Free Endorsement Offer

You ask for only **one of the following**:

- Letter of support
- Email confirmation
- Logo usage permission

Offer in return:

- Ministry recognition at continental and global level
 - Access to anonymised national performance insights
 - Visibility for national universities on global stage
-

Step 4 | University Activation (Parallel Track)

Universities:

- Register directly on the platform
- Form teams independently
- Do not need ministry approval to participate

Ministry endorsement:

- Strengthens participation
 - Improves sponsor confidence
 - Does not block execution
-

Step 5 | Public Acknowledgment

Once endorsement is secured:

- Logo on country page
- Listed as “National Education Partner”
- Mention in press and opening ceremonies

No ministry branding inside judging or results.

1.5 Risk Control Language

Always use:

- “Endorsed by”
- “Supported by”
- “In collaboration with”

Never use:

- “Official competition of”
- “Government-run”
- “State-backed”

This protects you legally and reputationally.

1.6 Why Ministries Say Yes

This is the internal logic they follow:

- No budget required
- No operational risk
- International exposure for universities
- Alignment with AI upskilling goals
- Prestige of London global final

That is enough.

SPONSOR PRICING CARD

2.1 GLOBAL TITLE SPONSOR (Exclusive)

Availability: 1 only

Pricing

- Year 1 | £200,000
- Multi-year preferred | £350,000 - £500,000 per year

Rights

- Global naming rights
 - Logo on all platforms and countries
 - Keynote slot at London final
 - Priority access to:
 - Startup pipeline
 - Talent database
 - Co-branding on media and broadcast
 - Strategic advisory access
-

2.2 CONTINENTAL SPONSORSHIP RIGHTS

Availability: 1 per continent

Pricing

- Year 1 | £40,000
- Year 2 onwards | £75,000 - £120,000

Rights

- Naming rights for continental Olympiad
 - Branding across regional events
 - First access to continental startups
 - Speaking slot at continental finals
 - Inclusion in global media rollups
-

2.3 COUNTRY OR REGIONAL SPONSORS

Availability: Limited per country

Pricing

- £10,000 - £25,000

Rights

- Country-level branding
 - University engagement visibility
 - Recruitment and talent branding
 - Inclusion in regional press
-

2.4 BROADCAST AND MEDIA PARTNER

Availability: Exclusive per region

Pricing

- Year 1 | £50,000
- Scales with audience reach

Rights

- Exclusive livestream
 - Highlight packages
 - Educational replay rights
 - Documentary co-production option
-

2.5 TALENT AND HIRING PARTNER

Availability: Limited

Pricing

- £20,000 - £30,000

Rights

- Early access to top talent
 - Hiring showcases
 - Internship and placement branding
 - Data insights (non-personal)
-

2.6 STARTUP ECOSYSTEM PARTNER

Availability: Limited

Pricing

- £25,000 - £50,000

Rights

- Priority access to startup finalists
 - Demo Day participation
 - Co-investment visibility
 - Deal flow previews
-

HOW THIS IS SOLD

You do **not** sell exposure.

You sell **exclusive rights and access**.

Language to use:

- “Exclusive”
- “First access”
- “Priority rights”
- “Limited allocation”

Language to avoid:

- “Marketing”
 - “Logo placement”
 - “Event sponsorship”
-

“The Global AI Olympiad offers structured, exclusive rights across global, continental, and national levels, giving partners early access to AI talent, startups, and institutional visibility before the platform scales.”

Use of Funds & 5-Year Expansion Vision

Executive Summary

Global AI Olympiad™ is designed to become the **world’s most prestigious, inclusive, and scalable AI competition platform**, headquartered in London and operating globally.

Unlike traditional Olympiads that focus only on elite talent, Global AI Olympiad connects:

- **Students**
- **Startups**
- **Universities**
- **Industry**
- **Underserved and emerging regions**

into one continuous AI ecosystem.

The first edition launches with:

- **Fully virtual global qualifiers**
- **Elite London-based Grand Finale & Gala**
- **Broadcast-ready global event**
- **Strong emphasis on AI for social impact, innovation, and real-world problem solving**

The Olympiad is not an end product.
It is the **foundation of a long-term AI institution**.

Why This Matters

- AI talent exists everywhere, opportunity does not
- Big tech wants **talent pipelines**, not just events
- Governments want **AI readiness**, not theory
- Media wants **prestige tech content**

Global AI Olympiad sits at the **intersection of all four**.

Use of Funds – £100,000

Key Advantage:

Brand identity, AI systems, competition platform, and technology infrastructure are fully supported internally by **Britsync**, significantly reducing investor risk.

Capital is used only for:

- Global exposure
 - Prestige
 - Talent inclusion
 - Media & broadcast readiness
-

1. Global Program Operations – £12,000

- Central coordination & governance
- University and country onboarding
- Competition frameworks & quality control

Purpose:

Ensure discipline, structure, and repeatability.

2. Global Marketing, Media & PR – £18,000

- Global digital campaigns
- Tech & mainstream press outreach
- High-quality visual storytelling (AI art, trailers, reels)

Purpose:

Position Global AI Olympiad as a **world-class AI movement**, not a niche event.

3. Virtual Regional & National Rounds – £3,000

- Fully online competitions
- Digital evaluation & ranking
- Certificates, showcases, leaderboards

Purpose:

Mass participation at near-zero marginal cost.

4. Mentors, Judges & Global Experts – £7,000

- International AI mentors (online)
- Judges and advisory board support

Purpose:

Credibility without heavy logistics.

5. London Grand Finale & Global Gala – £32,000

- Prestigious London venue
- High-end stage, lighting, screens
- AI art & innovation exhibition spaces
- Event production & security

Purpose:

Create a **global flagship AI event** comparable to top international forums.

6. Finalist Travel & Accommodation – £16,000

- 5 finalist teams (15 people)
- 10 individual finalists
- Flights, hotel, local transport

Purpose:

True global inclusion and fairness.

7. Broadcast & Media Rights Setup – £6,000

- Professional live streaming
- Recording & broadcast packaging

Purpose:

Turn the Olympiad into a **media asset**, not a cost center.

8. Legal, Compliance & Governance – £3,000

- Event contracts
 - IP & broadcast rights
 - GDPR & AI ethics
-

9. Contingency & Strategic Buffer – £3,000

Total Capital Deployment: £100,000

Revenue Model (Starting Year 1)

Even in Year 1, revenue is planned.

Year 1 Income Streams:

- Broadcast rights (regional & global)
- Tech partner sponsorships
- Institutional partnerships
- Exhibition & brand showcases

Year 1 target income: £80k–£150k
(Conservative, sponsor-dependent)

5-Year Expansion Vision

The Olympiad is the **gateway**, not the destination.

Year 1: Global AI Olympiad Launch

- 30 countries
- Fully virtual scale
- London Grand Finale
- Establish global credibility

Primary Goal: Brand + proof

Year 2: Global AI Olympiad + AI Fellowship

- Annual Olympiad becomes permanent
- Top talent enters **AI Fellowship Program**
- Industry-sponsored challenges introduced

Revenue Target: £300k+

Year 3: AI Innovation & Research Institute

- Launch **Global AI Institute**
- Focus on:
 - Applied AI
 - Ethics & governance
 - AI for emerging economies
- Partner with universities & governments

Revenue Target: £700k+

Year 4: AI Business Hub & Startup Accelerator

- Startup incubation & acceleration

- Equity-based participation
- Corporate-backed innovation labs

Revenue Target: £1.5M+

Year 5: Global AI Ecosystem Platform

- Annual Olympiad + media rights
- AI Institute & Research Labs
- Startup equity portfolio
- Policy advisory & consulting
- Global chapters across regions

Revenue Target: £3M–£5M+
